

Title Name	Page
A Comparative Study Between Muscle Energy Technique and Spinal Flexion-Extension Exercises Program in Treatment of Chronic Mechanical Low Back Pain.	380
A suggested physical therapy program in failed back surgery syndrome for lumbar disc prolepses.	60
A systematic review of electrical stimulation in cerebral palsy.	546
Acceleration of wound healing with high voltage pulsed galvanic versus micro current stimulation in burned patients.	289
Acetic acid iontophoresis in treating calcaneal spur associated with plantar facilities.	٢٨
Adverse Neurotension on Epidural Fibrosis following Cervical disc surgery.	392
Aerobic Exercises Versus Flexion Exercise Program in Treatment of Chronic Mechanical Low Back Pain.	453
Aerobic training effect on symptomatic mitral valve prolapse in females.	95
An ecological study of vital capacities changes among individuals subjected to indoor radon decay products.	٢٠
Analysis of gait in the different trimesters of normal pregnancy.	136
Antenatal Care between reality and what is expected.	443
Anthropometric measurements and spinal mobility in subjects with and without low back dysfunctions.	٢٤
Arterial blood gases response to incentive spirometry versus continuous positive airway pressure after coronary artery bypass graft.	268
Assessment of clinical instructor's Performance in the Faculty Of Physical Therapy, Cairo university.	409
Assessment of Dynamic Balance after Arthroscopic partial meniscectomy.	372
Assessment of Dynamic Balance in Adolescent Idiopathic Scoliosis.	376
Assessment of Hip Abductors Deficiency in the Recurrent Lateral Ankle Sprain.	523
Assessment of shoulder proprioception in chronic rotator cuff tendonitis.	61
Assessment of Ventilatory Function in Patients With Different Causes of Chronic Low Back Pain.	340

Title Name	Page
Auditory feedback effect on hand functions in hemiparetic children.	492
Bactericidal effect of helium-neon laser on photosensitized staphylococcus aureus in vitro.	7
Balance outcome in hemiparetic patients following use of a selected balance program.	111
Bilateral Symmetrical Arm Training: Its Effect on Elbow Muscles Co-Contraction in Stroke Patients.	537
Biomechanical Analysis of Sit to Stand Movement.	312
Biomechanical Analysis of Sit-To-Walk Movement in Parkinson's Patients.	478
Blood Gases Response to Different Body Positions in Patients with Chronic Obstructive Pulmonary Disease in Intensive Care Unit.	263
Blood gases response to Incentive spirometer in liver ascitic patients.	432
Blood glucose level response to acute exercise during fasting versus two hours postprandial for type2 diabetic patients.	429
Blood oxygenation response to treadmill exercise in elderly.	188
Boston brace versus electrical stimulation on scoliosis in spastic hemiplegic children.	489
Calcium gluconate intophoresis versus lidocaine topical anesthesia on spastic wrist flexors in stroke patients.	103
Cardiac rehabilitation program as a secondary prevention of coronary artery insufficiency.	91
Cardiopulmonary Functions Response to Aerobic Versus Anaerobic Exercise Program in Overweight Adult Subjects.	181
Cardiopulmonary response to different breathing modalities after coronary artery bypass graft in phase I of cardiac rehabilitation program.	182
Cardiovascular response to aerobic exercise training in diabetic autonomic neuropathy.	50
Cardiovascular response to body weight reduction for pre diabetic obese female.	262
Central versus peripheral strategies in training of standing balance in spastic diplegic children.	398
Changes of lumbar curvature and back muscles activity as early predictor of low back pain in normal pregnant women.	55

Title Name	Page
Chest physical therapy on mechanically ventilated neonates with respiratory distress syndrome.	434
Circadian specificity in flexibility of hamstring.	47
Clinical parameters' response to TENS in refractory angina pectoris.	260
Cold Application Versus Topical Anaesthesia Prior to Stretching of Achilles Tendon in Hemiparetic Cerebral Palsied Children.	299
Combined Effect of Closed-kinetic Chain Exercises and Conventional Physical Therapy after Fractures of Lower End of Radius.	525
Combined Low Intensity Laser and Magnetic Therapy in Treatment of Foot Pain in Diabetic Neuropathy.	393
Comparative study between mesotherapy and aerobic exercises in treatment of outer female thigh adiposity.	466
Comparative Study between Surgical and Conservative Treatment of Children with Upper Obstetric Brachial Plexus Palsy.	548
Comparative study between the efficacy of continuous versus intermittent traction in treatment of cervical radiculopathy.	449
Comparison between Delorme and Oxford Resistance Training Techniques.	318
Comparison of Ground Reaction Force between Normal Subjects and Parkinsonian Patients.	291
Comparison of Spinal Curvatures and Flexibility in Osteoporotic and Normal Women.	381
Comparison of two methods of respiratory care following cholecystectomy.	147
Computer mouse position as a determinant of posture and muscular load in normal subjects.	125
Conservative Management of Mechanical Neck Pain: Systematic Review and Meta – Analysis.	455
Constant versus incremental work rate cardiopulmonary exercises test in evaluation of functional capacity of Egyptian physical therapy students.	49
Coordination Assessment for Normal Children.	545
Correlation between Neck Proprioception Deficit and Balance in chronic Mechanical Neck Pain.	176

Title Name	Page
Correlative analysis between degree of spasticity and angle of wrist joint during grasping in spastic cerebral palsied children.	155
Dermatomal somatosensory evoked potential demonstration of nerve root function after 2-way traction.	126
Description of fetal and neonatal upper limb movement patterns.	157
Description of movement patterns used by blind and deaf children to rise from a supine position to erect stance.	41
Diagnostic Specificity of Two Electro diagnostic Tests in Carpal Tunnel Syndrome.	167
Diclofenac phonophoresis efficacy in knee osteoarthritis.	314
Diethylamine salicylate phonophoresis versus ultrasound in the treatment of carpal tunnel syndrome.	64
Different transcutaneous electrical nerve stimulation modes in relation to post mastectomy phantom pain.	281
Dynamic balance training versus traditional rehabilitation program in unilateral total hip arthroplasty.	451
Early weight bearing versus traditional physical therapy program in treatment of inversion ankle sprain.	195
Effect of Faradic Stimulation with Modified Denis Brown Splint in Treatment of Clubfoot.	298
Effect aerobic exercise training on placental blood flow in pre-eclamptic and diabetic patients.	98
Effect of a Cognitive Task on Voluntary Step Execution in Stroke Patients.	480
Effect of a Specifically Designed Computer Mouse Platform on Wrist Positions and Myoelectric Activity of Wrist Muscles.	173
Effect of Abduction Hip Splint on Standing Posture Pattern in Spastic Diplegic Cerebral Palsied Children.	301
Effect of acupuncture-like transcutaneous electrical nerve stimulation on serum cortisol level in post skin grafting.	286
Effect of acute exercise on glutathione as antioxidant in male smokers versus non smokers.	435
Effect of aerobic and electrolipolysis on sex hormones in infertile obese women.	٢٢
Effect of aerobic exercise on maternal blood glucose level and fetal birth weight in pregnant diabetic women.	368

Title Name	Page
Effect of Aerobic Exercise on Ventilatory functions in Smoking Adolescents.	338
Effect of aerobic exercises on patients with knee osteoarthritis.	456
Effect of Aerobic Training on Physical Work Capacity among Ederly.	257
Effect of Aquatic Therapy on Reaching for Infantile Hemiparesis.	547
Effect of Backpack Carrying Systems on Gait Kinetics in Idiopathic Scoliotic Patients.	329
Effect of Biofeedback Relaxation Training in Alleviating Premenstrual Disorders.	365
Effect of Biofeedback-Controlled Exercises In Treatment of Patellofemoral Pain Syndrome.	374
Effect of Bobath Axillary Roll in Posture Adjustment of Spastic Hemiplegic Cerebral Palsied Children.	303
Effect of breathing exercise program on walking distance in elderly.	131
Effect of cervical stabilization exercises in treatment of chronic mechanical neck pain.	271
Effect of chronic mechanical low back pain on dynamic balance.	٢٦
Effect of Computer Biofeedback Program on Hand 'Performance in Spastic Hemiparetic Cerebral Palsied Children.	304
Effect of Constraint Induced Therapy on Hand Function of Erb's palsied Children.	549
Effect of continuous passive movement on mechanical back pain in young female with idiopathic scoliosis.	487
Effect of Continuous Versus Intermittent Exercise Bouts on Bone Metabolism in Normal Subjects.	236
Effect of Coordination Training in Attention Deficit Hyperactivity Disorder.	414
Effect of declophenac phonophoresis versus low level laser therapy on osteoarthritis knee.	498
Effect of diaphragmatic breathing exercise in essential hypertension.	427
Effect of different aerobic exercise intensities on nitric oxide in males with mild hypertension.	354
Effect of Different Body Positions on Ventilation in Patients with Unilateral Lung Diseases.	345
Effect of Different Terrain Inclinations on Kinetic and Kinematic Parameters of Ankle Joint During Walking.	327

Title Name	Page
Effect of Different Treadmill Exercise Intensities on Thrombocytes in Mild Hypertensive Females.	431
Effect of Different Trunk Range of Motion on the Isokinetic Peak Torque Ratio of Trunk Flexor and Extensor Muscles.	251
Effect of Different Work-Rest Schedules on Functional Performance and Myoelectric Activity of Wrist Muscles in Computer Users.	328
Effect of Dynamic Hand Splint on Hand Function in Spastic Hemiparetic Cerebral Palsied Children.	307
Effect of dynamic suspension on back geometry in spastic diplegic children.	493
Effect of dynamic versus static ankle foot orthosis on lower leg spasticity control in dipelgic cerebral palsied children.	305
Effect of early mobilization and breathing exercises on arterial blood gases for open heart surgeries in intensive care unit.	134
Effect of early weight bearing exercises on sensor motor control after lateral ankle sprain.	٢٧
Effect of elbow immobilizer on standing holding on and walking with self support in spastic diplegic cerebral palsied children.	117
Effect of Electrical Stimulation on Standing Posture in Spastic Diplegic Cerebral Palsied Children.	219
Effect of Electrical Vestibular Stimulation on Recovery from Gaze Palsy.	210
Effect of electrolipolysis on lipid profile in female subjects.	241
Effect of Electrolipolysis Versus Metformin in The Treatment of Polycystic Ovarian Syndrome.	519
Effect of electromagnetic field on mammalian blood.	4
Effect of Electromagnetic Therapy On Diabetic Foot Ulcer.	347
Effect of electromagnetic therapy on diabetic polyneuropathy.	349
Effect of electromyographic biofeedback in rehabilitation of anterior cruciate ligament reconstruction.	459
Effect of EMG biofeedback in treating primary vaginismus.	441
Effect of exercise and electrical stimulations on type II muscle fibers.	124
Effect of exercise on complement system in obese females.	335
Effect of exercise on serum immunoglobulin-G and Ventilatory functions in males with chronic obstructive pulmonary disease.	339
Effect of Exercise training on the psychological state of obese Persons.	424

Title Name	Page
Effect of exercise's therapy on dynamic knee stability after ACL reconstruction using two different surgical techniques (A comparative study).	139
Effect of extremely low frequency magnetic field on mechanical properties of red blood cells in rats.	177
Effect of eye-head coupling exercises on cervicocephalic kinesthesia in chronic mechanical neck pain.	63
Effect of Fixed versus Dynamic Ankle Foot Orthosis on Energy Expenditure in Hemiplegic Children.	400
Effect of Functional Electrical Stimulation on Bone Mineral Density in Erb's Palsied Children.	407
Effect of Functional Electrical Stimulation on Reaching in Spastic Hemiplegic Cerebral Palsied Children.	218
Effect of Functional Electrical Stimulation on Standing in Children with Myelomeningocele.	402
Effect of Gender on Thoracic and Lumbar Vertebral Curvatures and Flexibility in Normal Subjects.	496
Effect of gentamycin iontophoresis on the incidence of wound infection in post cesarean section.	54
Effect of gravity force stimulation program on spinal curvatures in spastic hemiplegic palsied children.	486
Effect of Hand Anthropometry on Grip Strength in Normal Subjects.	504
Effect of heat on the mechanical strain of connective tissue proper.	84
Effect of High Voltage Galvanic Current Versus Intermittent Compression Therapy on Reduction of Hand Edema in Diabetic Stroke Patients.	256
Effect of Hydrotherapy on Ventilatory Functions in children with Down's Syndrome.	214
Effect of Hyperbaric Oxygen Therapy on Crouch gait.	405
Effect of hyperbaric oxygen therapy versus laser therapy in management of diabetic foot ulcers.	343
Effect of Inspiratory Muscle Training on Selected Blood Gases in Chronic Obstructive Pulmonary Disease Patients.	346
Effect of iontophoresis in management of juvenile rheumatoid arthritis.	399
Effect of Laser Puncture on Ventilatory Function In Asthmatic Patients.	344

Title Name	Page
Effect of lidocaine phonophoresis in spasticity modulation of spastic hemiplegic children.	413
Effect of local laser versus laser acupuncture in treatment of shoulder impingement syndrome.	500
Effect of Low Frequency Magnetic Field on Blood Flow in Diabetic Patients.	259
Effect of Low Intensity Laser on Elderly with Intermittent Claudication.	515
Effect of low intensity laser on the promotion of healing of the grade II injury of the anterior talofibular ligament of the ankle joint.	141
Effect of low intensity laser therapy on venous ulcer in lower limbs of Egyptian patients.	355
Effect of low intensity low frequency pulsed magnetic field on the bone density in spastic diplegic children.	484
Effect of low level laser therapy and aerobic exercise training in the treating pain of chronic pelvic inflammatory disease.	360
Effect of low level laser therapy and exercises in treating carpal tunnel syndrome during pregnancy.	359
Effect of low level laser therapy on wound healing and pain relief after episiotomy.	361
Effect of low Pulsed magnetic field therapy on motoneuron excitability in normal subjects.	242
Effect of Manual Hyperinflation on Selected Arterial Blood Gases In Mechanically Ventilated Patients.	507
Effect of multidimensional exercise program on fatigue of cancer patients undergoing chemotherapy.	288
Effect of neck, trunk shoulder immobilization on hand function in dyskinetic children.	115
Effect of neurodynamic tension on carpal tunnel syndrome.	81
Effect of neurodynamic tension on cervical radiculopathy.	324
Effect of ozone therapy in treating toxoplasmosis in cases with recurrent abortion.	439
Effect of Ozone Therapy on Foetoplacental Blood Flow in Hypertensive Pregnant Women.	362
Effect of ozone therapy versus electro acupuncture on adult obese subjects.	334

Title Name	Page
Effect of Para-Incisional and Zusanli Point Electrical Stimulation on Pain Medication Requirements in Post Inguinal Herniorrhaphy.	278
Effect of point percussion therapy exercises techniques on trunk control in spastic diplegic cerebral palsied children.	308
Effect of post-operative pelvic floor exercises program for female stress urinary incontinence.	518
Effect of postural control exercises in spider cage on standing pattern in spastic diplegic children.	163
Effect of Posture Correction Exercises on Sensory Nerve Root Function in Patients with Forward Head Position.	235
Effect of Progressive Resistive Exercise on Systemic Hypertension.	428
Effect of proprioceptive stimulation on sit to standing pattern in diplegic cerebral-palsied children.	161
Effect of pulsed electromagnetic field on chronic mechanical neck pain.	450
Effect of Pulsed Electromagnetic Field Therapy on Healing of the Closed Humeral Shaft Fractures.	452
Effect of pulsed electromagnetic fields on healing of infected burn wound in guinea pigs.	105
Effect of pulsed ultrasonic therapy on diabetic foot ulcers.	87
Effect of Resistive Exercise on Plasma Lipoproteins in Sedentary Middle – Aged Men.	514
Effect of selected balance training program on balance in elderly.	89
Effect of selected under water exercises on crouch gait in spastic diplegic children.	116
Effect of Selective Physiotherapy Program on Back Geometry and Spinal Mobility in Spastic Diplegic Cerebral Palsied Children.	306
Effect of static versus dynamic hand splint on grasping in spastic hemiparetic children.	543
Effect of Stepping Versus Walking Exercise in Management of Intermittent Claudication.	184
Effect of Strengthening Program of Shoulder Muscles and Hand Functions in Spastic Hemiplegic Children.	397
Effect of String Vibration Damper of Tennis Racket on Myoelectrical Activity of Wrist Extensors.	422
Effect of sub maximal exercise on serum immunoglobulin G during second and third trimesters of normal pregnancy.	56
Effect of therapeutic ultrasound in the treatment of post partum coccydynia.	364

Title Name	Page
Effect of Three Various Motivations on Management of Head Control in Cerebral Palsied Children.	215
Effect of tonic vibratory reflex on hand function in spastic hemiplegic palsied children.	158
Effect of Tonic Vibratory Reflex on Reaching in Spastic Hemiparetic Cerebral Palsy Children.	220
Effect Of Treadmill Exercise On Nitric Oxide In Diabetic Patients (Type Two).	353
Effect of Treadmill Training on Gait Pattern in Down's Syndrome Children.	300
Effect of ultrasonic and stretching tendon Achilles on ankle performance in patients with diabetic foot ulcer.	509
Effect of Ultrasound Therapy on Alleviating Pain and Adhesions in Endometriosis.	442
Effect of underwater exercises on dynamic trunk control in spastic diplegic cerebral palsy children.	156
Effect of Unilateral Back Bag Carrying on Dynamic Balance in Adolescent Idiopathic Scoliosis.	383
Effect of Unweighing System Therapy Using Treadmill on Balance in Spastic Diplegic Children.	544
Effect of upper versus lower limb exercises on blood glucose level in type 2 diabetes patients.	512
Effect of Using Selected Foot Orthoses on Foot Pressure Distribution in Patients with Hallux Valgus.	175
Effect of visual motor integration training program on dyspraxia in spastic children.	410
Effect of Walking Training on the Quality of Life of the Sedentary Elderly Subjects.	187
Effect of weight reduction on ventilatory function in obese women.	333
Effect of Weights on Ground Reaction Force in Hemiparetic Children.	408
Effectiveness of high voltage pulsed current in the treatment of hand burn.	٣٤
Effects of bilateral Knee Osteoarthritis on Proprioception and Dynamic balance.	382
Effects of biofeedback-assisted relaxation on preeclampsia.	366
Effects of early closed kinetic chain exercises on the rate of callus formation during distraction osteogenesis by ilizarov's method.	59
Effects of flat foot on pelvic mechanics and spinal curvatures.	238

Title Name	Page
Effects of interval training exercise on the performance of subjects with exercise induced brochospasm.	94
Effects of laser puncture versus microcurrent stimulation on prostatodynia and pelvic myoneuropathy.	468
Effects of microcurrent stimulation versus pulsed electromagnetic field on wound healing in burned patients.	467
Effects of patellar taping on patients with patellofemoral pain.	٣١
Effete of honey therapy versus gallium alumimum arsenide laser in treatment of pressure ulcers.	529
Efficacy of Aerobic Exercise on Blood Coagulation in Obese Females.	508
Efficacy of Aerobic exercises in alleviating primary Dysmenorrhoea.	363
Efficacy of aerobic exercises versus electrical stimulation in treatment of the centrally obese women postmastectomy.	532
Efficacy of aerobic training program on weight reduction after gastroplasty in female.	283
Efficacy of biofeedback exercises of the pelvic-floor muscles in the treatment of erectile dysfunction.	199
Efficacy of Constraint Induced Therapy on the Unaffected side on the Upper Extremity Function in Hemiplegic Children.	488
Efficacy of diclofenac phonophoresis on chronic pelvic in flammatory disease.	137
Efficacy of different methods of breathing exercises on ventilatory function in elderly.	92
Efficacy of different pulse frequencies of high voltage galvanic stimulation on the torque of the quadriceps muscle.	5
Efficacy of Dynamic Suspension on Gait Pattern in Spastic Children.	404
Efficacy of Early Intervention of the Selective Physical Therapy Program in Postmastectomy Patients.	206
Efficacy of early versus late therapeutic intervention on the functional results after finger flexor tendon repair.	280
Efficacy of electrolipolysis versus abdominal exercises on abdominal fat in young female.	93
Efficacy of Helium Neon Laser Irradiation on segmental vitiligo.	531
Efficacy of high and low tens frequencies on motoneuron excitability in normal subjects.	79

Title Name	Page
Efficacy of hyperbaric oxygen therapy on spastic cerebral palsy children.	221
Efficacy of interferential current in the treatment of chthonic pelvic inflammatory disease.	53
Efficacy of laser pulse frequencies on blood flow in normal subjects.	77
Efficacy of laser pulse frequencies on nerve conduction velocity.	233
Efficacy of Laser Therapy and Pressure Garment on Post astectomy Lymph edema and Pain.	284
Efficacy of laser versus ozone therapy on chronic ulcerations of lower limb.	462
Efficacy of low frequency and low intensity pulsed electro magnetic field in treatment of knee osteoarthritis.	377
Efficacy of Low Frequency and Low Intensity Pulsed Magnetic Field in Treatment of Juvenile Rheumatoid Arthritis.	222
Efficacy of low intensity laser therapy in treatment of juvenile rheumatoid arthritis.	118
Efficacy of low level laser therapy in chronic mechanical neck pain.	457
Efficacy Of Low Level Laser Therapy Versus Ultrasonic In Carpal Tunnel Syndrome For Diabetics.	264
Efficacy of myofascial release in chronic masticatory myofascial pain dysfunction syndrome.	112
Efficacy of Narrow Band Ultraviolet B Versus Topical Psoralen Plus Ultraviolet A in Treatment of Generalized Vitiligo.	201
Efficacy of physical training on ventilatory functions in Alzheimer's.	51
Efficacy of Pulsed Electromagnetic Therapy on Neck Pain in Cervical Spondylosis.	540
Efficacy of pulsed short wave on ehrlich tumor growth on mice.	44
Efficacy of Russian Current and Low Frequency Pulsed Current on Quadriceps Muscle Torque and Soreness.	245
Efficacy of selected exercise programs for intermittent claudicates.	١٦
Efficacy of selected therapeutic exercises program in the treatment of patients with low back dysfunction.	240
Efficacy of silver sulfadiazine phonophoresis on wound healing in acute burn patients.	106
Efficacy of sodium salicylate iontophoresis in the treatment of plantar warts.	204

Title Name	Page
Efficacy of specially designed biofeedback system for breathing exercises on ventilatory function in children with moderate persistent asthma.	185
Efficacy of spinal manipulation in the treatment of low back dysfunction.	45
Efficacy of tens application on pain modulation and pulmonary function after valvular surgeries.	145
Efficacy of two different pulsed electromagnetic field therapy programmes on diabetic foot ulcers.	464
Efficacy of ultrasound Conduction velocity in peripheral diabetic neuropathy.	479
Efficacy of Ultraviolet Radiation in the treatment of psoriasis.	203
Efficacy of Using Electromagnetic Field Therapy on Chronic Low Back Pain Patients.	294
Efficacy of walking exercise on thrombocytes in healthy subjects.	١٥
Electrical stimulation and Urinary Dysfunction: A Review Study.	285
Electrical stimulation as an adjunctive treatment for post prostatectomy incontinence.	143
Electro acupuncture versus ultrasound in knee osteoarthritis.	502
Electromyographic activities of Quadriceps And Hamstring Muscles During Ascending And Descending Stairs Of Different Heights.	254
Electromyographic study and three dimensional analysis of scapular movement in stroke patients.	211
Electromyography of Back and Abdominal Muscles at. Different Trunk Inclination Angles during Pushing for Normal Individuals.	174
Electromyography study of medial Gastrocnemius muscle following low frequency current stimulation in normal subjects.	244
Energy expenditure following rehabilitation of the reconstructed anterior cruciate ligament.	460
Energy Expenditure of Treadmill And Stationary Bicycle Among Male Runners.	437
Enzymatic response to exercise in fatty liver patients.	342
Evaluation of Postural Sway in Patients with Diabetic Peripheral Neuropathy.	179
Evaluation of Static and Dynamic Postural Control in Cerebral Palsied Children.	226

Title Name	Page
Evaluation of supervised incentive spirometry training regime in the management of pulmonary complications after valvular operation.	108
Exercise therapy for post oncological surgery patient.	149
Factors influencing physical therapy graduates, decision to work with elderly patients.	١٩
Faradic Stimulation versus Joint Approximation in Treatment of Hemiplegic Cerebral Palsied Children.	224
Flow-oriented incentive spirometer versus Volume-oriented spirometer training on pulmonary ventilation after upper abdominal surgery.	472
Foot Pressure For Normal Versus Club Foot Children.	411
Functional effects of proprioceptive training after anterior circulate ligament reconstruction.	٢٥
Functional limitations, impairment and disability in patients with chronic obstructive pulmonary disease.	١٣
Gastrocnemius myotendinous junction electrical stimulation efficacy on gait in stroke patients.	535
Geometrical Analysis of The Spine for Brachial Plexus Palsied Children.	302
Glycemic Control Response to A Combined Aerobic and Resistance Exercise versus Aerobic Exercise in Diabetic Patients.	266
Ground Reaction Force Assessment in Stroke Patients.	212
Haemodynamics response to monitored exercise and its relationship to lipoprotein lever in obese.	١٤
Hand Grip Strength and Wrist Joint Range of Motion in Relation to Various Body Postures in Spastic Diplegic Cerebral Palsied Children.	216
Helium Neon versus Gallium Arsenide laser irradiation on burn wound healing.	386
Historical review of physical therapy for osteoporosis in geriatrics.	332
Honey therapy versus ultraviolet radiation in the treatment of pressure ulcer.	1٤٦
Hyperbaric Oxygen Therapy and Burn Healing.	282
Hypertrophic Scar.	388
Immediate arterial Blood Gases response after diaphragmatic exercise, incentive spirometry and both in smoker and non-smoker, post coronary artery bypass.	341

Title Name	Page
Immediate response of incentive spirometry versus non invasive intermittent positive pressure breathing on arterial blood gases post mitral valve replacement.	261
Impact of Ankle Joint Mobility Program on Balance Performance In Diabetic Elderly Subjects.	350
Influence of a shoe lift insert in hemiparetic gait.	152
Influence of aerobic exercises training on type II diabetic hypertensive patients.	96
Influence of Ankle Training Program on Dynamic Balance in Patients with Diabetic Peripheral Neuropathy.	477
Influence of Circadian Rhythm on Quadriceps Muscle Torque.	248
Influence of different intensity of exercise on lipid per oxidation.	229
Influence of Endurance Training on Myocardial Oxidative Stress.	168
Influence of flat foot on some mechanical measurements of the lumbar spine.	9
Influence of hip rotation angles on myoelectric activity of vastus medialis oblique during straight leg raising.	311
Influence of interferential therapy combined with specific exercises program on the hip abductors strength and gait in paraparetic patients.	110
Influence of muscle fatigue on shoulder proprioception.	313
Influence of progressive pressure release on low back dysfunction.	319
Influence of proprioceptive training on knee function in patients with knee osteoarthritis.	243
Influence of Reflected Marker Size in Accuracy of Motion Analysis.	239
Influence of smoking on isometric strength of back extensors.	316
Influence of the severity of lumbar discogenic lesion on kinematic gait parameters.	476
Influence of Therapeutic Exercise on Circulating Thyroid Hormones as a Factor in Reduction of Body Weight.	320
Influence of therapeutic exercises on selected gait parameters of low back dysfunction.	247
Influence of transcranial magnetic stimulation on elbow and wrist flexors spasticity during reaching performance in stroke patients.	538
Influence of unilateral knee osteoarthritis on some radiological parameters of the lumbar spine.	١١
Infrared Laser Therapy Versus Manual Techniques In Treatment of Lateral Epicondylitis.	102

Title Name	Page
Instantaneous Effect of Prolonged Stretch on Monosynaptic Excitability in Hemiplegic Cerebral Palsied Children.	482
Intermittent Versus Continuous Traction In Treatment Of Lumbar Disc Herniations.	275
Isodose Distribution Curves of Selective Electro-therapy Instruments.	232
Isokinetic data base analysis of knee flexors and extensors in stroke patients.	395
Isokinetic peak torque of elbow flexors and extensors at different shoulder joint positions in normal male individuals.	83
Isokinetic peak torque of elbow flexors at different forearm positions in normal and diabetic individuals.	١٠
Isokinetic peak torque of the plantar flexor muscles at different knee joint angles in male subjects.	85
Isometric Muscle Force Responses to Different Waveforms of Neuromuscular Electrical Stimulation.	323
Kinematic and Electromyographic Analysis of Reaching Pattern in Stroke Patients.	293
Kinematics analysis of the knee joint during stance phase in patients with Torn anterior circulate ligament.	192
Knee cage versus below knee orthosis the control genu recurvatum in cerebral palsied children.	73
Laser Acupuncture and Negative Balanced Diet in Post Menopausal Women with Abdominal Obesity.	189
Laser acupuncture versus direct laser in management of plantar fasciitis pain.	169
Laser versus diclofenac phonophoresis in treatment of plantar facilities pain.	499
Low - intensity laser in conjunction with ultrasound therapy in treating carpal tunnel syndrome.	٣٨
Low Carbohydrate versus low-fat diet combined with exercise training on young obese females.	337
Low laser puncture therapy outcomes in management of infants with pneumonia.	190
Low-carbohydrate versus Low-fat diet combined with exercise training on blood lipid profile in obese females.	516
Lower Extremity Flexors and Extensors Isokinetic Testing During Closed Kinetic Chain.	253

Title Name	Page
Lumbar Lordosis and Pelvic Inclination Assessment in Chronic Mechanical Low Back Pain.	272
Lumbar repositioning accuracy in low back dysfunction.	234
Lumber stabilization exercises versus combined spinal flexion-extension exercises in treating chronic mechanical low back pain.	101
Measurement of femoral anteversion angle and hip abductors muscle torque in spastic hemiplegic cerebral palsy.	491
Measurement of Ground Reaction Force and Myoelectric Activity during Clutch Pedal Operation in Response to Change of Knee Joint Angle.	252
Mechanical changes of patello-femoral joint and locking mechanism of knee joint after anterior circulate ligament reconstruction.	129
Median frequency changes during Para spinal isometric contraction in different age groups.	78
Moment changes of lower limb during gait in stroke patients.	475
Motor Relearning of the Hamstring Muscles in Stroke Patients.	296
Muscle tone modulation using non-invasive electrical vestibular stimulation in cerebral palsied children.	162
Muscle torque responses to different waveforms of neuromuscular electrical stimulation.	80
Myoelectric Activity of Neck and Back Extensors at Different Hip Flexion Angles During Bridging Exercise.	330
Myoelectric Activity of Neck Extensors with the Change of the Angle of Writing Arm Support during Sitting.	172
Neuromuscular electrical stimulation and wrist splint controlling spaticity in stroke patients.	٣٦
Neuromuscular electrical stimulation of calf and medial hamstring muscles versus anterior tibial and quadriceps muscles for gait control in hemiparetic children.	119
Normal Range of Motion of Lower Extremity Joints in Young Adults: Preliminary Study.	237
Open versus closed kinematic chain exercises in treatment of patellofemoral pain syndrome.	100
Optimum Spinal Position-Based Program in Management of Lumbo-Sacral Radiculopathic Back Pain.	249
Optimum Therapeutic Intensity of Ultrasound for Reducing Carpal Tunnel Syndrome in Pregnant Women.	440

Title Name	Page
Peripheral Nerve Conduction Velocity Modulation in Hemiparetic Children via Physical Therapy Program.	223
Phonophoresis Versus Ultrasound in the Treatment of Frozen Shoulder.	273
Phonophoresis Versus Ultrasound in Treatment of Lateral Epicondylitis.	375
Physical therapy approach after plastic surgery in crushed hand.	67
Physical Therapy Interventions For chronic obstructive pulmonary diseased Patients (Systemic Review Study).	506
Physical Therapy Interventions for Mechanically Ventilated Patients (Systemic Review Study).	348
Physical therapy management for chemotherapy-induced neuropathy in cancer patients.	151
Physical Therapy Versus Surgical Treatment on Abdominal Adiposity in Female.	530
Planter foot pressures distribution in different trimesters of normal pregnancy.	367
Planter pressure distribution in flat foot subjects: implementation for treatment.	419
Plyometric Exercises versus Progressive Resisted Exercises in the Treatment of Lateral Ankle Sprain in Athletes.	524
Posterior Selective Rhizotomy in Management of Children with Spastic Cerebral Palsy: Systematic Review.	485
Postural correction rehabilitation program combined with traditional versus sole traditional in chronic mechanical neck pain.	276
Postural deviations among rural and urban pre-adolescents.	٤٠
Practice in skin dysfunctions.	287
Predicted Peak Oxygen Consumption and Walk Test As A Measure of Exercise Capacity For Chronic Obstructive Pulmonary Disease Patients.	351
Pressure Garment versus Deep Friction Massage in Controlling Elbow Joint Hypertrophic Scar.	202
Pressure ulcers responses to iontophoresis.	69
Proprioception Influence on Shoulder joint Injuries IN Egyptian Handball Players.	123
Proprioceptive training influence on knee-ankle relationship during gait.	315
Pulmonary Gas Exchange and Quality Of Life in Patients with Left Ventricular Failure.	357

Title Name	Page
Pulmonary responses of walking or cycling training post laparoscopic cholecystectomy.	144
Pulsed Electromagnetic field therapy efficacy on genitofemoral and ilioinguinal postoperative neuralgia.	469
Pulsed Electromagnetic Field Versus Traditional physical Therapy In The Treatment of Chronic Mechanical Low Back Pain.	270
Pulsed Magnetic Field Versus Exercise on Osteoporosis in Elderly.	336
Pulsed Magnetic Field Versus low level laser therapy in treatment of knee OA.	497
Pulsed magnetic Field versus transcutaneous electrical nerve stimulation in treatment of low back dysfunction.	417
Reactive neuromuscular training in stroke patients Rehabilitation.	418
Reciprocal electrical stimulation in relation to hand function in hemiparetic children.	74
Relation of Galvanic Vestibular Stimulation Evoked Response and Balance urements in Hemiparetic Patients.	170
Relationship between kinematic gait analysis and Lysholm knee scale after arthroscopic partial meniscectomy.	446
Relationship between Neuromuscular Electrical Stimulation Amplitude and Muscle Soreness.	230
Relationship between Spinal Curvatures and Prolapsed Female Genital Organs.	369
Relationship between ventilatory functions and work capacity in patients with liver cirrhosis.	510
Relationship of Lumbosacral and Pelvic Tilting Angles in Patients With Sacroiliac Joint Dysfunction.	196
Relative relationship between maximum voluntary ventilation and weight reduction in young adult obese subjects.	١٨
Reliability of clinical risk markers (Arizona Scale) versus exercise stress test in stratifying exercise intensity for cardiac patients.	433
Reliability of reflective markers placement used for motion analysis.	122
Reliability of Saline and Dental Impression Material Techniques to Measure Pressure sores Volume.	279
Reliability of the BROM device in measurement of the lumbar range of motion.	6
Response of Bone Density to Exercises and Negative Balanced Diet in Obese Women.	258

Title Name	Page
Response of Forced Expiratory Volume at the First Second and Diaphragmatic Motor Nerve Conduction Time to Intermittent Cervical Traction in Cases of Chronic Cervical Spondylosis.	180
Response of Hand Functions to Continuous Passive Motion Device in Hand Burn Injury.	390
Response of Liver Enzymes to Aerobic Exercise in Diabetic Patients.	436
Response of Ventilatory Function to Breathing Exercise in Welders.	186
Responses of Ventilatory Functions to Breathing Exercise versus Breathing Exercise with Chest Mobilizing Exercise In Elderly.	425
Role of Functional Electrical Stimulation in Gait Pattern for Hemiparetic Cerebral Palsied Children.	225
Role of Hip Flexors Strengthening on Triceps Sura Shortening in Adolescent Female.	490
Role of latissimus dorsi muscle in decreasing hip reaction force during cane use.	٣٠
Role of Isokinetic training on muscle torque after thermal burn injury.	66
Role of mechanical strengthening exercises on hand grip following dorsal skin graft.	473
Segmental trunk and hip joint motion analysis during sit –to-stand task in stroke patients.	539
Selected physical therapy program versus abdominoplasty for the treatment of abdominal wall weakness and fat accumulation.	470
Short width pulse stimulation in relation to spasticity control of hemiparetic cerebral palsy children.	71
Significance of vestibular stimulation using direct current in erb's palsy.	72
Skeletal Muscles Strength and Blood Flow Response to Electrical Stimulation in Chronic Heart Failure.	511
Some vascular response to different forms of transcutaneous electrical nerve stimulation.	127
Static and Dynamic Plantar Pressure Measurement in Hemiparetic Children in Relation to Normal.	483
Strengthening Versus Endurance Exercises in Treatment Of Chronic Mechanical Neck Pain.	522
Study of chest diseases in primary schools in Cairo (survey).	88

Title Name	Page
Symphyseal distention in relation to pelvic pain in prim and multigravid women.	57
Tea Tree Oil Phonophoresis Versus Topical Tea Tree Oil In Treatment of Plantar Warts.	387
The combined effect of mobilization and therapeutic exercises versus therapeutic exercises in treatment of shoulder impingement syndrome.	526
The combined effect of taping and selective isometric exercises in enhancing the correction of mechanical patellofemoral malalignment.	٢٩
The Effect of balance training on stability and foot function in cases of unilateral plantar fasciitis.	527
The Effect of Cervical Manipulation on Selected Parameters in Patient with Mechanical Neck Pain.	445
The effect of constraint induced therapy on fine motor skills in hemiparetic children.	401
The effect of contoured foam seat on reaching from sitting in spastic diplegic cerebral palsied children.	159
The effect of different heel height on the balance of elderly women.	430
The Effect of Different TENS modes on Treatment of Chronic Low Back Dysfunction.	322
The Effect of Exercise Program Intervention for Children with Acute Lymphoblastic Leukemia.	463
The effect of heavy weight knee immobilizer and pelvic band on standing posture in dyskinetic cerebral palsy children.	160
The Effect of Hyperbaric Oxygen Therapy versus Pulsed Ultrasonic Therapy on Diabetic Foot Ulcer.	200
The effect of Low- Dye taping on management of patients with unilateral plantar Fasciitis.	373
The effect of low level laser therapy versus transcutaneous electrical nerve stimulation on knee osteoarthritis.	140
The effect of music therapy for creation of social bond and improvement of fine motor skills in autistic children.	403
The Effect of Non -Invasive Continuous Positive Airway Pressure on Blood Gases in Patients with Congestive Heart Failure.	267
The effect of pulsed electromagnetic field on motor conduction velocity in peripheral burn neuropathy.	465
The effect of two different doses of laser therapy in the treatment of knee osteoarthritis.	371

Title Name	Page
The effect of various pressures of the forearm support band on wrist extensors in tennis elbow.	62
The effectiveness of mobilization in management of cervicogenic headache.	454
The effects of smoke inhalation on physical fitness among firefighters in Cairo.	132
The Efficacy of Different Neck Positions with Intermittent Cervical Traction in Cervical Radiculopathy.	197
The efficacy of high versus low doses of Helium-Neon laser on healing rate of venous ulcers.	207
The Efficacy of Laser Acupuncture Therapy on Postoperative Pain Following Appendectomy.	385
The efficacy of laser therapy combined with early therapeutic exercises versus conventional therapeutic exercises after hand flexor repair.	447
The efficacy of low level laser therapy on Herpes Simplex Lesions.	534
The efficacy of peripheral manipulation for shoulder dysfunction in stroke patients.	295
The efficacy of pulsed versus continuous ultrasound in acceleration of the venous ulcer healing.	471
The efficacy of the light emitting diode in the treatment of acne vulgaris.	533
The efficacy of the narrow band ultraviolet in the treatment of acne vulgaris.	389
The efficacy of three different intensities of pulsed micro amperage stimulation on wound healing in guinea pigs.	205
The efficacy of thrust mobilization technique in the treatment of the sacroiliac joint dysfunction.	379
The evaluation of non-invasive intermittent positive pressure breathing in the management of pulmonary complications after open heart surgery.	68
The incidence of osteoporosis and osteopenia among knee osteoarthritic patients.	521
The influence of foot evertors re-education on gait in stroke patients.	113
The influence of kyphotic posture on the scapular kinematics.	420
The influence of scapular taping technique on subjects with impingement syndrome.	246
The prevalence of low back pain among policemen in great Cairo.	448

Title Name	Page
The relation between regular exercise and chronic constipation in elderly.	133
The Role of Electrical Stimulation in Rehabilitation of Hand Flexor Tendon Reconstruction.	193
The role of preventive balance training in improving function and reducing incidence of knee injury - a study on football players.	169
The role of strengthening hip extensors muscle in treatment of chronic mechanical low back pain.	378
The suggested physical therapy program post TMJ discectomy.	458
The Validity and Reliability of Functional Grading Scales in Relation to Nerve Conduction Study in Bell's Palsy Patients.	394
Therapeutic efficiency of gait and mechanical stretching in lower extremity.	٣٣
Therapeutic Results of Corticosteroids Phonophoresis on post-Burn Hypertrophic scars.	148
Three dimensional analyses of selected parameters of vertebral column in subjects with pes planus.	194
Timed vital capacity response to electrical stimulation in central obesity for adult males.	513
Tincture benzoic compound phonophoresis for treatment of decubitus ulcers.	107
Transcranial Electromagnetic therapy efficacy on spasticity in Stroke patients.	292
Transcutaneous electrical nerve stimulation on diabetic neuropathy.	١٧
Treadmill Training Versus Chest Physical Therapy on Ventilatory Functions in Down's Syndrome Children.	406
Treadmill Training Versus Endurance Exercises in Improving Muscle Strength and Functional Activity in Down's syndrome Children.	542
Treadmill walking exercise versus burst - mode transcutaneous electrical nerve stimulation in patients with peripheral arterial occlusive disease.	183
Trunk muscles torque as a predictor of falling in stroke patients.	153
Ultrasound Therapy versus Mechanical Pressure Therapy in Treatment of Postmastectomy Lymphedema.	208
Use of Scoring System to Assess and Classify Carpal Tunnel Syndrome.	274

Title Name	Page
Utilization of spider cage for dynamic balance improvement in Spastic hemiparetic cerebral Palsy Children.	412
Validation of Twin Axial Electrogoniometer in angular measurement.	501
Validity and Reliability of A Modified electrogoniometer for Measuring Knee, Joint Range of Motion.	231
Validity of fixed ankle foot orthoses with extra wide base on standing postural control in spastic hemiplegic children.	164
Validity of motion analysis for measuring scoliosis.	325
Validity of Oral Aerobics in speech improvement in Dysarthric children.	217
Validity of three-dimensional motion analysis system in measurement of the lumbar range of motion.	321
Value neuromuscular electrical stimulation in conjunction with shoulder sling in reducing the incidence of shoulder subluxation in stroke patients.	٣٧
Variation in Shoulder Rotators Rorque Production in the Scapular and Frontal Planes.	317
Ventilatory Function in Relation to Different Classes of Obese Women.	356
Ventilatory Function Response to Supported versus Unsupported Arm Exercise among Elderly.	265
Ventilatory functions changes in middle aged patients following open - hart surgeries.	90
