Master Degree
1979

Author	:	Olfat Saied Helmy Mohamed.
Title	:	Angular displacement at the knee joint in normal gait.
Dept.	:	Department of Biomechanics.
Supervisors	1.	Awatef Mohamed Lbib.
	2.	Ahmed Omar Zaafan.
Degree	:	Master.
Year	:	1979.
Abstract	:	
<p>Human locomotion is a phenomenon of the most extraordinary complexity. Although the primary objective of locomotion may be simply stated as the translation of the body from one point to another by means of a bipedal gait , its analysis requires the collection of an enormous amount of data in order to follow the entire cycle of events .</p>		
Key words	1.	Biomechanics.
	2.	Gait in humans.
	3.	Human gaits.
	4.	Human locomotion.
	5.	Walking.
	6.	Knee
	7.	Joints.
